

# Bowel Preparation for Colonoscopy Procedures

## PREPARATION

You will need a **three (3) sachet pack** of PICOPREP ORANGE. This can be purchased at any pharmacy over the counter, a script is not required.

## TIMETABLE

PRIOR TO PROCEDURE			ADMISSION
3 Days	2 Days	1 Day	Day of Procedure
Do not eat any nuts seeds or grains	Follow The White Diet on <a href="#">page 3</a>	Clear fluids and bowel preparation (PICOPREP ORANGE sachets)	Nil by mouth as instructed by hospital

## DAY PRIOR TO YOUR PROCEDURE

Clear fluids only (no solid food is allowed). Clear liquid means you should be able to see your fingers through the glass. These should be a variety of sweet and savoury drinks e.g.:

- Clear soups – bonox, broths, consume, stock in hot water
- Black coffee and/or tea, no milk products

- Jellies, cordials, soft-drinks and fruit juices (lemon or lime)
- Nothing red, blue or purple in colour
- Clear Gatorade
- No pulp in juice
- Drink plenty of water

## INSTRUCTIONS FOR PICOPREP ORANGE

PICOPREP ORANGE produces a watery stool and cleanses the bowel prior to the examination. It is important to clean the bowel out properly or it will inhibit the results of your procedure.

Lanolin or similar cream applied to the anal area before beginning your bowel preparation may help to avoid soreness.

Take the three (3) sachets of PICOPREP ORANGE at the following times:

1. **First sachet** - 3:00pm on day prior to your procedure
2. **Second sachet** - 6:00pm on day prior to your procedure
3. **Third sachet** - 4 to 5 hours prior to admission time (on the day of the procedure)

At each interval dissolve one sachet of PICOPREP ORANGE in approximately 250ml (about one glass) of warm water. Stir until the powder has dissolved. Cool if preferred. Then drink this slowly over 5 to 10 minutes.

Drink another three to four glasses of water or clear fluid of your choice slowly over the next little while.

## ON THE DAY OF YOUR PROCEDURE

On the day of your procedure, the hospital will advise when you should be nil by mouth (no food or drink of any kind **UNLESS** it is your final sachet and water for your PICOPREP ORANGE), keep having "Clear liquids" only until this time. Fasting or "nil by mouth" means nothing to eat, drink, suck or chew. The hospital will also provide you with your arrival time.

On the day, you should arrive at the admissions area of the hospital at the time advised to allow time to complete your admission.

If you are taking iron tablets, please omit them one week prior to your procedure.

Aspirin, Warfarin, Iscover, Plavix, Pradaxa or other anticoagulant medications should be taken as usual unless otherwise instructed by your specialist. If you are on any of these medications please advise the Gastroenterologist in advance of the procedure.

Other medications should be taken as usual with a sip of water in the early morning on the day of your procedure.

# The White Diet

The **White Diet** is a simple low residue diet which allows food to be eaten prior to colonoscopy without compromising the quality of the bowel preparation under normal circumstances.
